In case you were wondering, it took a reminder from Robin to get this finished. Sorry for the delay. Sincerest apologies to Ron Boast whose final lap time was somehow unfortunately lost. Unofficial estimates put his finishing time at approximately 2 hrs 24 minutes plus which would have placed him in 47th place between Ed Hadley and Gordon Butler.

With 66 entries, 57 riders started, 54 finished (55 including Ron).

Thanks to Norman James for timekeeping, Selwyn for pushing-off, Jeff for recording, Alf and Mandy at HQ both of whom took over my duties and responsibilities on the day and of course, not forgetting ALL the marshals stood for three hours ensuring no one got lost !!

See you next year. Anthony
